Presentation Time – 6:15 p.m.

**The same information will be presented at both public scoping meetings.*

The Arizona Department of Transportation (ADOT) is inviting the public to attend one of the public scoping meetings to learn more about the proposed east/west freeway in western Maricopa County, Arizona. The proposed freeway, State Route (SR) 801, would provide another east/west route to help relieve congestion from Interstate 10 (I-10). The proposed SR 801 would connect the future Loop 303 and the future Loop 202 South Mountain Freeway. This is one of several projects proposed to improve east/west traffic flow in the west valley associated with the passage of Proposition 400.

The purpose of these public scoping meetings is to present the proposed project for SR 801. The same information will be presented at both meetings. Representatives from the ADOT project team will be present to answer your questions during the meetings.
